# Romancing the Future

By Judy Julin

*Romancing the Future is a magnificent bounty of rich stories and exquisite outcomes as seen through the eyes of Julin, a woman who has lived the adventure and experienced true success.*

*-Dr Pat Baccili, Host of the Dr. Pat Show – Talk Radio to Thrive By.*

Rarely does life produce characters such as Judy Julin- a glorious risk taker in all of life's arenas. In *Romancing the Future* (Findhorn Press/June 2008/\$15.95), Julin candidly reveals how she transformed herself from a young, uncertain woman in Pittsburgh, Pennsylvania into an 'out of the box' entrepreneur at the forefront of a new paradigm business model based on spiritual principles. She is both a genuine student of life *and* an incredible teacher sharing her valuable wisdom to encourage others to dare their destiny into being.

Julin's life story is the stuff of movies and she writes a fascinating page-turner filled with dramatic twists and great characters while never forgetting her ultimate goal – to motivate others to take up the challenge of their dreams. Her story is genuinely touching and often hilarious. She describes the 'madness' of her spontaneous spiritual awakening, her sojourn in a psychiatric ward, marriage, bankruptcy, divorce and her arrival in Hollywood. Along the way, she meets great spiritual teachers, fraudsters and inspired partners; she has wonderful ups and incredible downs; but throughout continues to hold on to an unwavering belief in both her dream and her destiny.

Filled with inspirational stories the book essentially stirs readers into action. Julin describes how she embraced her life's purpose – to create a revolutionary enrichment program and imaginative play space for children. Despite the difficulties she encounters, Julin emerges as a powerful creator, manifesting, as if from nowhere, the financial wherewithal to embark on bringing her dream to life.

Anyone faced with life's challenges can identify with Julin; she is adorably real. She effectively shares her life as a spiritual quest making her book a welcome inspiration and indispensable guide for anyone seeking support on how to bring their dreams and goals into reality. *Romancing the Future* is Julin's love letter to what is possible.
